

# Chesterfield Health District

*Serving Powhatan and Chesterfield Counties  
And the City of Colonial Heights*

## ***Public Health Hit Parade***

### **VDH Experts Explore Key Issues on Nov. 12**

What are the key issues facing public health in the Commonwealth at both the local and state levels as 2010 approaches? A team of Virginia Department of Health (VDH) experts will brief members of the Chesterfield Health District Medical Reserve Corps (CHD/MRC) on current programs and issues, what is being done to address them, and what MRC members and others can do to help.

While the H1N1 flu situation is an obvious choice and should be in the Hit Parade spotlight, there are other critical issues that Virginia residents should keep in mind. Steve Harrison and Seth Levine will explore issues of which we should be aware. Steve Harrison is Assistant Director of Operations, Plans and Logistics for VDH's Emergency Preparedness and Response. Seth Levine is Foodborne Disease Epidemiologist in VDH's Division of Surveillance and Investigation.

This exploratory session is scheduled from 7 p.m. to 9 p.m. at the Colonial Heights Public Safety Building, 100-B Highland Ave., 23834. The CHD/MRC is part of the Chesterfield Citizen Corps Council whose members -- CERT and Neighborhood Watch -- are welcome to attend. Register by e-mailing your name, address and phone number to [jon.donnely@vdh.virginia.gov](mailto:jon.donnely@vdh.virginia.gov), or by calling 804-768-7292. The deadline is 5 p.m. on Nov. 10

*For information about becoming a member of the Chesterfield Health District's Medical Reserve Corps, contact MRC Program Coordinator Jon R. Donnelly at [jon.donnely@vdh.virginia.gov](mailto:jon.donnely@vdh.virginia.gov) or call 804-768-7292.*
